

SURGEONS ONLY DAY programme

On April 11, the EPATH conference will host a “surgeons only day” in close collaboration with the European Association for Gender Surgery (EAFGS). The surgeons only day takes place at the Marriott Park Hotel in Rome, room: Bramante 15.

08:25 Introduction

08:40 Surgeons Only Session I: trans men

5 min presentations

What is a “normal” masculine chest? Findings from an anthropometric study of cisgender men and implications for transgender chest wall masculinization surgery.

Floyd Timmermans (VU Medical Center)

Chest reconstruction and chest dysphoria in transmasculine minors and young adults

Johanna Olson-Kennedy (Children's Hospital Los Angeles/University of Southern California)

Masculinizing chest surgery in transmale patient: does large breast always correlate with postoperative loss of nipple sensation ?

Alexis Laungani (Mayo Clinic)

Nipple sensation and appearance after chest wall reconstruction using the double incision mastectomy and inferior dermal flap technique. A prospective study from a single surgical center in a three year period.

Ioannis Ntanos (North Manchester General Hospital)

Masculine chest wall contouring in transmen: a personal approach

Giulia Lo Russo (Department of Plastic and Reconstructive Microsurgery, Careggi University Hospital, Florence Italy)

Combined total laparoscopic hysterectomy and bilateral salpingo-oophorectomy with subcutaneous mastectomy in trans men: does the order matter?

Lian Elfering (Amsterdam UMC, location VU University Medical Center)

Vaginal remnants after gender affirmation surgery in trans men

Marta Bizic (School of Medicine, University of Belgrade, Belgrade, University Children's Hospital, Belgrade, Serbia)

Vaginal colpectomy in transgender men; procedure and outcomes of a retrospective cohort study

Freek Groenman (Amsterdam UMC, location VUmc)

The effect of colpectomy on the lower urinary tract function in transgender men: a prospective cohort study

Brechje Ronkes (Amsterdam UMC, location VUmc)

9:55 Coffee break

10:10 Surgeons Only Session II: trans men

5 min presentations

"Gender Confirming Surgery for trans men" - the Daverio all-in-one surgical concept
Paul Daverio (Swiss Medical network)

Combination phalloplasty in trans men: surgical methods and complications
Toshiyuki Watanabe (Okayama University Hospital)

Comparison of Radial Forearm Flap and Antero-Lateral Thigh Flap Phalloplasty: Analysis of 413 Cases
Karel Claes (University Hospital Ghent)

An outcome analysis of the suprapubic pedicled phalloplasty in females with gender dysphoria: a retrospective cohort analysis
Massimiliano Timpano (Urology Department, Città della Salute e della Scienza, University of Turin on behalf of CIDIGEM (Turin University Hospital Gender Team - Italy))

The surgical technique and outcomes of secondary phalloplasty after metoidioplasty in transgender men: an international, multi-center case series.
Muhammed Al-tamimi (Amsterdam UMC, location VU University Medical Center)

A new coronoplasty technique in penile reconstruction
Salvatore D'Arpa (Uz Gent)

SCIP Phalloplasty - Is it the aesthetic, cosmetic and functional way forward: KDAH series
Sanjay Pandey (Kokilaben Dhirubhai Ambani Hospital & Research Institute)

Pedicled sensate SCIP flap; a promising technique for phalloplasty.
Kristin de Hase (Amsterdam UMC, location VU University Medical Center)

The pedicled labia minora flap: a multicenter study on the clinical outcome of a novel surgical technique for urethral lengthening in transgender men undergoing phalloplasty.
Muhammed Al-tamimi (VU Medical Center)

11:25 Round table: Reconstructing the urethra in ALT flap phalloplasties

Reconstructing the urethra in ALT flap phalloplasties: experience based on 93 cases.
Salvatore D'Arpa (Uz Gent)

12:00 Lunch break

12:30 EPATH opening session

Venue: Michelangelo Ballroom

14:00 EAFGS General Meeting

14:30 Surgeons Only Session III: trans women

5 min presentations

Perception of the femininity of the face and satisfaction with the results after one year of the FGCS: relationship with subjective well-being
Marina Rodríguez (FACIALTEAM)

Facial Feminization Surgery for transgender patients using 3D preoperative planning, osteotomy guides and Piezosurgical device: surgical technique and results.
sarra cristofari (Tenon hospital- University Paris 6)

Lower jaw contouring techniques in Facial Gender Confirmation Surgery
Luis Capitán (FACIALTEAM)

Management of complications in Facial Gender Confirmation Surgery: the forehead reconstruction
Luis Capitán (FACIALTEAM)

Developing a training program in Facial Feminization Surgery: a pilot experience
Fermín Capitán-Cañadas (FACIALTEAM)

Psychological strain and social support in transgender women after gender confirmation surgery
Jochen Hess (Department of Urology, Pediatric Urology and Urological Oncology, University Hospital Essen)

15:25 Invited session: Robotic Vaginoplasty

Robotic Vaginoplasty: An Alternative to Penile Inversion Vaginoplasty in Cases of Insufficient Skin, Vaginal Stenosis, and Rectovaginal Fistula
Loren Schechter (The University of Illinois at Chicago)

16:00 Coffee break

16:15 Surgeons Only Session IV: trans women

5 min presentations

Case Report: Laparoscopic assisted bowel vaginoplasty and transperineal recto-vaginal fistula repair in a trans woman following primary inverted-penoscrotal vaginoplasty.
Konstantinos Georgas (Plastic Surgery Department, Sahlgrenska University Hospital, Gothenburg)

Gender affirmation surgery (gas) in trans women: penectomy – what does it involve?
Marta Bizic (School of Medicine, University of Belgrade, Belgrade, University Children's Hospital, Belgrade, Serbia)

Sensitivity before and after gender confirming surgery on the glans penis and neoclitoris - a preliminary report from an ongoing study.
Hannes Sigurjonsson (Karolinska University Hospital)

Refinements of vaginoplasty in Okayama University
Yuzaburo Namba (Okayama University Hospital)

Is a different approach needed for creation of clitoral hood and labia minora in penile inversion vaginoplasty in circumcised transwomen?
Karel Claes (University Hospital Ghent)

Fistularepair and Redo-Vaginoplasty as One-Step Procedure in Transwomen
Julia Bohr (Kliniken Essen-Mitte, Dep. of Urology)

Sex reaffirming surgery using the combined technique leads to increased quality of life in a prospective study

Nikolaos A. Papadopoulos (Department of Plastic Surgery and Burns, Alexandroupoli University General Hospital, Democritus University of Thrace, Alexandroupoli)

oMtFSFI: operated Male To Female Sexual Function Index. Development and validation of the first questionnaire to assess sexual function after male to female gender reassignment surgery.

Girolamo Morelli (Department of Urology, University of Pisa)
